

UPDATE!

Great News! WheelofSiCi GAME PASSED Beta testing and will be integrated with the token at pre-release, which is approximately 30 days away!

Solana promotion to begin soon on several channels on Telegram, Reddit and Discord

Additional SiCi character poses begin to take shape. Look forward to NBA and Football themed poses

Work begins on the second meme-coin character so there is a fluid introduction to the second meme-coin after the main character is launched.

Mobile App - current work continues to ensure integration across all platforms

Sound design – Rights agreements are being negotiated for copyrighted music to allow a full music content library of popular music along with independent unsigned artist creator content.

Security – It has been decided that Blockchain hosted data repositories are chosen for data storage. This will allow all data to be secured in a fully distributed environment preventing any single entity to capture, steal or own any data.
